All Vox Power products meet the requirements of the RoHS Directive and the labels of our fully RoHS-compliant power supply units will display the following mark:

The RoHS legislation restricts the use of certain hazardous substances to levels of less than 100-1000 ppm used in electrical and electronic products.

The RoHS directive, which came into effect on July 1, 2006, prohibits the use of the following substances in products placed into the market:

- Lead
- Mercury
- Cadmium
- Hexavalent chromium
- Polybrominated biphenyls
- Polybrominated diphenyl ethers

The following product categories apply to the RoHS directive:

- Large household appliances
- Small household appliances
- Computing and communications equipment
- Consumer electronics
- Lighting
- Power tools
- Toys, leisure and sports equipment
- Automatic dispensers
